To Whom It May Concern:

This letter is in response to a request for a recommendation for Dave Haugland. Dave worked with me on the New Mountain Home Junior High School which was completed this past April.

Dave was very responsive to my Requests for Information sent to him in a timely manner. He was open to changes in design that was more cost effective, and he made regular visits to the project to make sure his designs and the quality of the work were being incorporated to the specifications. He also would follow up with phone calls now and then, just to check on different aspects of the work to see if they were being installed correctly.

He was one of the better structural engineers that I had the opportunity to work with.

Sincerely,  
CM Company, Inc.

A handwritten signature in black ink that reads 'LaVor Smith Jr.' with a stylized flourish at the end.

LaVor Smith Jr.  
Superintendent
