

HUTCHISON  
SMITH  
ARCHITECTS

To Whom It May Concern:

Hutchison Smith Architects has had the pleasure of using the structural engineering services of AHJ Engineers, P.C. on a variety of educational, residential and light industrial projects over the years. These projects have ranged in size from small remodels and additions to new facilities.

We have found AHJ's services in all design and construction phases of a project to be exceptional. They are very knowledgeable in all structural systems and building materials and are committed to staying within time schedules and budgets. AHJ is very timely in answering questions and solving problems during all phases of the project.

Our firm looks forward to having AHJ Engineers, P.C. as part of our design team for many projects in the future. We highly recommend them for your structural engineering needs.

Sincerely,

Hutchison Smith Architects
