AHJ Engineers, PC
Letter of Recommendation

To Whom It May Concern:

We are writing to recommend AHJ Engineers, PC for creative solutions to challenging structural engineering problems. We have worked with Dave Haugland and his staff on many projects in the Boise area, and also in the higher snow-load areas of McCall and Cascade. They have always provided complete and detailed designs for our projects, and have particular expertise on the structural systems of older buildings, including historic structures.

We do not hesitate to recommend AHJ for any of the most complex structural designs.

Sincerely,

Doug Cooper
Principal
