A-H-J Engineers
5418 N. Eagle Road, Suite 140
Boise, ID 83713

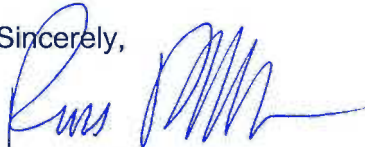

Re: Letter of Reference

INSIGHTarchitects has worked with A-H-J Engineers on numerous diverse project types during the past nine years. We appreciate the level of detail and dedication they show to our projects. The staff at A-H-J is easy to work with and maintains a professional attitude.

There are a variety of project delivery paths that we use and have found A-H-J to be very flexible in accommodating our various delivery methods. This is important to us since there is not a set solution for every client.

We highly recommend A-H-J Engineers as they are typically our first choice when selecting a structural engineer for our projects.

Sincerely,

Russ Phillips, AIA
